MEMORANDUM

TO: Commissioner David Scott, P.E.

FROM: Ladun Esan, P.E. 

RE: Local Government Project Agreement (LGPA)

Subject: SR 280/Hightower Road from I-20 to Bankhead Highway

The following information about the above referenced project is provided at your request.

A local Government project agreement (LGPA) stipulates commitments made by the City of Atlanta (COA) and Georgia Department of Transportation (GADOT) in implementing projects identified as part of the regions transportation improvement plan (TIP). A copy of the un-executed LGPA is attached, it is my understanding that the original was forwarded directly to you.

GADOT's policies stipulate that LGPA's be duly executed before each project can be authorized for preliminary engineering (PE) funding.

The city merely need's to execute the LGPA if we are in support of the project. An option of indicating project support but not committing any funding is also available. The City can indicate its support for the project while not committing any funds.

Dear Mr. Hooker:

SUBJECT: LOCAL GOVERNMENT PROJECT AGREEMENT
Project No. STP-9000(19) FULTON CO., PI # 750105

The Office of Programming has added the following project to the Department's Construction Work Program for:

RECST/REHAB / WIDENING
SR 280/HIGHTOWER RD FM I-20 TO BANKHEAD HWY/SR 8/US 278

The City of ATLANTA is requested to indicate support of this project by executing the attached Local Government Project Agreement and returning it to this Office.

Any project not contained in the Transportation Improvement Plan (TIP) for your area and/or the Statewide Transportation Improvement Plan (STIP) will be submitted for addition. This action is required by federal law in the Inter-modal Surface Transportation Efficiency Act (ISTEA) of 1991. ISTEA also requires that the cost of the projects in the TIP/STIP be balanced with available federal funds.

If you choose not to commit to this project it may be delayed until additional funding can be found. If you commit but later are unable to keep this commitment or if you do not respond, this project will be delayed until it can be rescheduled in the TIP/STIP. The longer you wait to commit, the longer the project will be delayed. The new federal law requires long range planning.

If you have any questions, feel free to call me at (404) 656-5320 or Mitch Fowler, District Engineer in Chamblee at your convenience.

Sincerely yours,

Herman T. Griffin, P. E.
